CLEANING GUIDE FOR FABRICS, BUTTERFLYS & OVERHEADS

Due to the incompatibility of the various fiber contents of the Butterfly and Overhead materials, Matthews recommends that they be washed in cold water with mild detergent, and blocked dry on the proper frame to prevent shrinkage. Be sure they are dry before placing in a storage bag.

After cleaning, flame retardants may have been removed.

NOTE: Matthews has had success with this cleaning procedure; however, we will not be held responsible for the results.
